

DURAGO TITANIUM SERIES

Introducing the new DuraGo Titanium Series brake rotors.
Our new DTS line of rotors features painted hat and edge protection
for increased corrosion protection and great aesthetics.

DURAGO.

www.DuraGoParts.com

DuraGo Titanium Series (DTS)™ brake rotors deliver a winning combination of quality, performance, styling and defense against corrosion. DTS brake rotors feature a corrosion resistant coating that provides lasting protection to the hat and edge of the rotor. As an added benefit, the titanium gray finish complements vehicles with open wheel designs. DTS brake rotors are manufactured in an ISO certified factory to meet requirements of fit, form and function. DTS brake rotors are engineered from DuraGo's 20 years of knowledge and experience, providing one more reason why DuraGo is the preferred choice of the Auto Care Professional.

Computerized Machined
For tight tolerance controls

Multi-Stage Q.C. Process
To ensure parts meet dimensional and weight specifications

SAE J431 Metallurgy

Non-Directional Finish
For improved brake pad bedding

Painted Hat and Edge
Improved corrosion protection
