DURAGO

AIR DISC SERIES

Fully coated

For lasting corrosion protection

Introducing the New DuraGo Heavy Duty Air Disc (DAS) Brake Rotors.

DuraGo Heavy Duty Air Disc Brake Rotors are engineered to meet the demanding requirements of class 7 & 8 air disc equipped applications.

DURAGO

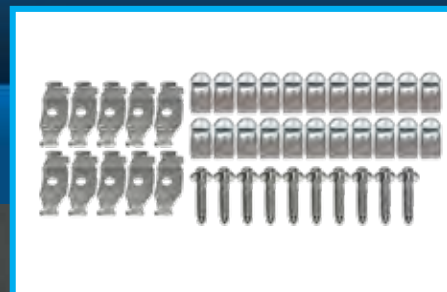

AIR DISC SERIES

DuraGo Air Disc Brake Rotors (DAS Series) are engineered for extreme durability and meet all requirements of fit, form and function. To ensure dependable performance, DAS Brake Rotors are manufactured in IATF 16949:2016 certified facilities with premium ASTM G3500b metallurgy. Our utilization of ASTM G3500b metallurgy and leading-edge casting design provides better tensile strength and excellent heat dissipation resulting in dependable performance and a long service life.

Each brake rotor is coated with a Geomet® coating rebranded as DuraNetic™. DuraGo DuraNetic™ coating is a premium rust resistant barrier engineered with metal oxides, metallic zinc and aluminum flakes. The zinc and aluminum particles align in multiple layers forming a metallic inorganic silver coating to ensure ultimate corrosion resistance.

16 SKUs providing 95%+ coverage for all popular Air Brake systems:

- Bendix® ADB22X, SK7, SN7, ADB225
- Meritor® EX225H2, L2,
- WABCO® Pan 17, 19 & 22

Hardware

Hardware include on BR950000-04,
For Bendix® / Knorr-Bremse ADB22X™
and ADB225™

DuraNetic™

Rust-resistant coating to ensure
ultimate corrosion resistance.

High Carbon ASTM G3500b Metallurgy

For enhanced heat dissipation.
