DURA GO

MUNICIPAL SERIES

PURSUIT VEHICLE APPLICATIONS

DuraGo Pursuit rotors use GG20HC High Carbon Metallurgy for improved heat dissipation and distortion resistance, resulting in better stopping power with reduced noise and vibration. They offer excellent braking performance in the most extreme stopping situations.

16 Applications Including:

- 21-23 Chevy Tahoe PPV
- 21-23 Dodge Durango Pursuit
- 20-24 Ford Interceptor

Non-Directional Finish

For improved brake pad bedding

RoHS Compliant Coating

Meets Strict Environmental Standards

Manufactured In

IATF 16949:2016 Certified Facilities

100% Machine Balanced

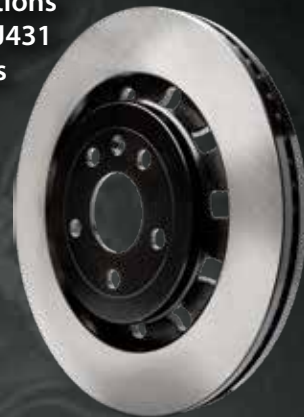

Ensures smooth consistent braking

SPECIAL SERVICE APPLICATIONS

Special Service applications are engineered to SAE J431 metallurgical standards ensuring dependable performance, long life and quiet braking.

21 Applications

- Pickup Trucks
- SUV's
- Delivery Vans

300+ Hour Salt Spray Protection

Tested Per (ASTM B-117/ISO 9227)

Detailed Cores

For Tighter Tolerances and Cleaner Castings

Electrophoretic Coating

Bonds to all rotor surfaces both inside and out for superior corrosion protection
